THE SEARCH FOR LIFE IN SPACE

Journey from the depths of the Pacific Ocean into the far reaches of space on a quest to find something that changes everything—signs of life, somewhere else in the universe. This immersive adventure into the universe reveals the possibility of life on planets like our own.

BONUS with this film, we have included a 7-minute IMAX immersive audio and film demo piece – fun for the senses and not to be missed. (G) Running time: 40 mins.

CONQUEST OF THE SKIES

The ability to fly is one of the greatest wonders of the natural world. Millions of creatures soar above our heads today using a variety of techniques to defy gravity and master their aerial environment. But how did animals make the incredible transition from land to air? Travel through time to discover the astonishing 300-million-year story of flying animals. (G) Running time: 45 mins.

ROCKY MOUNTAIN EXPRESS

Now in IMAX 4K Laser - this beautiful film is even more visually stunning, and the 12-channel sound truly lets you feel the rumble of the majestic steam locomotive #2816 as it powers you through the Rocky Mountains and back in time. You'll ride the rails along deep river canyons and over high mountain passes to discover some of the most beautiful, rugged landscapes on earth and you'll witness the heroic human drama and epic engineering that shaped a continent. (G) Running time: 45 mins. 

AMAZON ADVENTURE

The epic, true story of explorer Henry Bates' fascinating 11-year journey as a young man who risks his life for science in the 1850's. Discover the mind-boggling examples of animal camouflage and mimicry and be inspired by Bates' endless curiosity and determination to explore the wilds of the Amazon. (G) Running time: 45 mins. 3D
